

Blue Planet Accessories Ltd.

100% Export Oriented Garments
Accessories Manufacturer & Supplier

Overview

- In 2009, BLUE PLANET Group had a thought of moving to textile industries since they are already producing high quality yarn. However the challenge has to have, a world class textile, meeting all compliances, produces high end knitwear. By this , they created a team of experts from leading textile industries in Bangladesh . The management team has a total of over 40 years in the industry. BPKW have a composite garment manufacturing facility comprising of Spinning (Badar Spinning Mills Ltd.), Knitting, Printing, Embroidery and Packing in a single place. This enables us to provide fast and timely delivery of orders.
- The Company firmly believes that sustained growth can be possible only by partnering with customer and understanding their needs, providing customized and cost efficient product. Strong business relationships, commitment to outstanding services and wide range of application know how make Blue Planet Accessories a preferred partner for its customers.
